

# About us

Michael Ott, Michaela Ott  
Management board

Since its incorporation in 1978, **MEDITE® GmbH** has grown to be a mid-sized industrial corporation specializing in the development, manufacture and distribution of medical laboratory instruments for **pathology, histology and cytology**. For these fields, we offer the complete range of necessary instruments and consumables. You can receive extensive information about our product range by consulting our catalogue and online-shop.

The **MEDITE® GROUP** headquartered in Burgdorf/Germany and its dependent companies in Europe is joined by yet another member in our growing family of businesses committed to providing our well-known quality coverage of the world's essential markets: **Medite Inc.** a Florida Company based in Orlando was formed in May 2007 and is dedicated to serve the continental U.S., Canada and Mexico.

**MEDITE®** develops innovative solutions that can be applied to all tasks within the histopathological laboratory. Economy, reliability, efficiency and ergonomics are our most prominent reasons for success.

We're not satisfied with our products until the customer is!
